Report on Expert Talk: Overseas Opportunities for Engineering Students

Date: 24th September 2024

Location: A.Y. Dadabhai Technical Institute, Kosamba

Introduction:

Guests and Inauguration:

The program was graced by a distinguished team from KC Overseas Surat, including:

1. Dr. Imran Surti – Academic Incharge
2. Mr. Kulvinder Singh – Branch Manager
3. Mr. Utsav Sehgal – Business Development Manager

The event commenced with an inauguration ceremony led by Mr. M.A. Sheikh, the Training and Placement Officer, who delivered an engaging introduction and welcome speech. Following this, Honourable Director Mr. M.M. Dalchawal felicitated the guests with flowers, acknowledging their contributions and the importance of the topic.

Program Structure

The expert talk was structured into two sessions:

First Session:

Participants: Electrical, Mechanical, and Civil Engineering students.

Second Session:

Participants: Computer Engineering students.

A total of 131 students attended the event across both sessions.

Keynote Speeches

The program featured two key speeches:

Dr. Imran Surti initiated the first session with a comprehensive presentation on the various overseas opportunities available for engineering graduates. His insights included information on international job markets, the skills in demand, and the steps students should take to prepare for such careers.

Dr. Imran Surti Delivering speech

Following Dr. Surti's presentation, Mr. Kulvinder Singh took over the session, elaborating on specific pathways for students to explore overseas education and employment options, including scholarship opportunities and application processes.

Conclusion:

The expert talk provided valuable information and motivated students to consider global career prospects. The feedback from participants was overwhelmingly positive, with many expressing appreciation for the insights shared by the guest speakers. This event has reinforced the institute's commitment to enhancing students' awareness of international opportunities in the engineering field.
